

INFORMATION ABOUT TOUR GUIDE WHISPER SYSTEM

DESCRIPTION

The Tour Guide Whisper System allows travelers to wander off and take pictures while listening to the interesting information and stories the guide is sharing. It makes walking with a group in a busy city more safe and convenient because without difficulty or the need to raise the voice travelers can hear the guide's instructions clearly. The guide uses a transmitter and the travelers the receivers.

USEFUL SPECIFICATIONS

- Integrated battery system
- Range of 150 to 200 meter
- 100 different channels
- Weighs 50 grams and fits easily in a pocket
